GENERAL CHARACTERISTICS OF THE OMEGA 50 L LITTER BIN

- Manufactured using the high-density polyethylene injection system or the linear polyethylene rotational moulding system.
- Stylised design by means of smooth, rounded and simplified shapes and lines, devised to be located in cities with a modern and updated image.
- The range of **OMEGA** litter bins is available with capacities of 50, 60 and 120 litres.
- The set of **OMEGA** litter bins has been designed to have a texturized finish that is both graffiti-proof and sticker-proof.
- The rounded form of the cover renders it impossible to dispose of unwanted waste and prevents a build-up of water.
- Easy maintenance: the limited number of parts and components allows for effective maintenance.
- **OMEGA** litter bins are 100% recyclable at the end of their useful life. The entire range can be manufactured with up to 100% recycled material.
- All the litter bins in the **OMEGA** range comply with the current Spanish Accessibility Standard (UNE EN 170001).

TECHNICAL SPECIFICATIONS: OMEGA 50 L LITTER BIN ISLANDS

- The **OMEGA 50 L** litter bin islands enable the user to separate the waste at source.
- The island makes it easy to collect the waste selectively.
- It is especially designed to be placed in urban environments frequented by large numbers of people: shopping centres, major avenues, the old quarters of cities and towns, etc.
- The island can be composed of 2, 3 or 4 litter bins.
- **OMEGA 50 L** litter bins consist of an internal structure, body and cover.
- Capacity of the 50-litre basket. Shock-proof and break-proof.
- User opening, dimensions available: **OMEGA 50 L** Litter Bin: 385 x 107 mm.
- Height of user opening located at 900 mm, to make user access easier.
- Option of customising the colour of the basket, cover and structure.
- Option of a non-watertight body for the **OMEGA 50 L** litter bin, so any liquids contained can be drained away.
- The opening and closing system is equipped with a standard triangular key that can only be used by authorised staff.

ACCESSORIES

ASHTRAY -

An accessory only available for the standard version of each model. Attached to the centre of the litter-bin cover, it enables users to stub out cigarettes and put them in the ashtray.

ELECTRONIC CHIP -

A space available for containing chips. It makes it easy to identify and locate the product and allows those responsible to monitor the required cleaning and maintenance operations.

WASTE BAG DISPENSER -

Potential for equipping the litter bin with a bag dispenser for dog excrement. The way it is fitted to the side of the litter bin, enables the user to remove the bags with minimum physical contact.

LITTER BIN ISLAND -

A litter bin island available only for the OMEGA 50 L model. The island is available with 2, 3 or 4 containers.
