INFORMATION SECURITY POLICY

At **CONTENUR**, aware of the importance of Information Security and in accordance with the requirements of the UNE-EN ISO 27001:2023 standard, this Policy has been defined with the aim of expressing the Management's commitment to Information Security by implementing the appropriate mechanisms to ensure that the organisation is aware of, understands and puts this Policy into practice, as well as ensuring that it is reviewed and made publicly available.

At **CONTENUR** we are committed to:

- Ensure that the Information Security Policy and objectives are established and compatible with the organisation's strategy.
- To comply with the applicable legal and regulatory requirements, as well as with the commitments acquired with the Information Security Management System.
- To meet the needs and expectations of the interested parties involved within the scope of the Information Security Management System, preserving the availability, integrity and confidentiality of information.
- Assign the necessary roles and responsibilities in the field of information security and provide the necessary support.
- Establish and periodically review the level of security based on risk analysis.
- Commitment to continuous improvement as the primary mechanism for the evolution and adaptation of the organisation.
- Implement effective and efficient security measures.
- Involve suppliers/contractors in Information Security management.
- Encourage training, communication and awareness-raising among our employees, informing them of the commitments acquired, the objectives and goals and the use of management tools, so that they become an involved and participative part of the System.
- Maintain fluid communication with all interested parties, ensuring the availability of required information.
